March 2, 2026

Dear Valued Customer,

Effective April 1st, 2026, HiCube Coating is implementing a 5% price increase on all products. This price increase is driven by both raw material and labor costs increases.

All orders shipped after April 1st, 2026, will reflect the new increased pricing. All orders currently in-house with a confirmed ship date before April 1st will not be affected. We encourage you to place orders by March 15th to allow us sufficient lead time on non-stock items.

As always, HiCube will work vigorously to keep our costs down, while continuing to supply products that meet or exceed your expectations. Please know that we appreciate your business and understanding with respect to this increase.

Thank you,

Michael Kehr
