Subject: Upcoming Price Adjustment – Effective January 1, 2026

Dear Valued Customers and Partners,

As global metals markets continue to fluctuate—largely driven by changes in government import/export duties and tariffs—RPR Products, Inc. remains committed to delivering the quality and service you expect.

To offset rising costs in raw materials, production, and inflation, we will be implementing a price adjustment effective January 1, 2026:

- Aluminum Products (including roll goods, sheet goods, fabricated items, and accessories):

  Price increase of 5%–10%

- Aluminum Fittings:

  Price increase of 15%–18%
  (A revised list price will be distributed accordingly.)

- Stainless Steel T304 and T316:

  No change currently

We appreciate your continued support and understanding. If you have any questions, please don't hesitate to contact us directly.

Sincerely,

Dale Kendrick
Sales Manager
RPR Products, Inc.
